

The right people - in the right place at the right time.

Because commercial and corporate real estate moves quickly, Real Estate Talent Solutions is ready to meet your immediate consulting needs with talented professionals. Real Estate Talent Solutions provides a base of prescreened, highly qualified and experienced associates prepared to fill your specific needs without delay.

Skill sets include:

- Acquisition/disposition support
- Argus and financial modeling
- Asset management
- Corporate real estate
- Development
- Due diligence
- Executive management
- Finance
- Lease administration and abstracting
- Loan underwriting
- Project management
- Property management

Real Estate Talent Solutions is uniquely equipped to step in and support you on a flexible basis at critical times with a broad, deep pool of professionals not otherwise available to clients. *Best of all, this commitment ends as soon as the project is completed.*

Whether you have a position to fill, a major project on the horizon or a sudden need for key personnel, Real Estate Talent Solutions has quick, practical and innovative answers to fit your requirements.

Immediate Solutions

Before joining Real Estate Talent Solutions, each associate has been carefully screened, references checked, recent work experience verified, credentials documented and interviewed in person. You can access this nationwide, Best-in-Class talent pool with these simple steps:

1. Provide Real Estate Talent Solutions with a profile of your specific need, including qualifications and assignment requirements.
2. Your information then is matched to our select pool of associates, identifying one or more available associates and their qualifications for your specific assignment.
3. Your firm receives the Associate Profile(s) for review, and upon your acceptance, an interview is scheduled. You make all final decisions on the candidate.
4. A standard contract is signed with Real Estate Talent Solutions, and we follow up with you regularly for feedback on the associate's performance.
